More Than 1,000 Patrons In  
Theater When Blaze  
Started.

THREE PERSONS DIE  
57 OTHERS INJURED

Firemen Search Debris In  
Belief Other Bodies  
Are Buried.

New Haven, Conn., Nov. 28.—A thorough investigation of fire hazards in all theaters here was promised by Mayor Fitzgerald today following the death of three persons and injury of 57 others in the blaze which last night destroyed the Rialto theater.

More than 1,000 persons were in the theater when the fire started, among them a number of Yale students. Men, women and children made frantic efforts to reach the exits when the cry of fire was raised.

Mayor Mix ordered a formal investigation, following a preliminary investigation of the fire.

Firemen searched among the debris today in the belief other bodies might be buried in the wreckage.

Timothy J. Hanlon 53, a factory watchman, whose neck was broken in an attempt to leave the theater during the panic was the only one of the dead thus far identified. The other two victims were a woman about 65, and a young man, both of whom were found on fire escapes.

On the dangerous list were Mabel Moran, 25, of Derby; Mrs. Mary Kelly, 27, of Prospect Beach; Allan Kelly, Yale student of Southport, Conn.; T. E. Doolittle, Yale student of Soukane, Wash.; and Victor Corlier of this city, all terribly burned and injured. All the other injured were New Haven residents with the exception of several Yale students.

The damage to the theater, owned by former State Senator Harry Leonard of this city and managed by the Rialto Theater Organization of Boston, was estimated at \$25,000.

Lack of an asbestos curtain, required by law in all but movie theaters and the combination of burning, flammable and flimsy draperies are the principal subjects of inquiry by the coroner.

The fire is said to have started when the blaze from incense burning on the stage to give local atmosphere to an Arabian picture which was being shown, ignited some scenery.

## ELECTION BOARD TO PROBE CHARGE OF VOTE FRAUDS

Irregularities Charged By  
Electors Of Precinct  
In Salineville.

GIVE FOUR REASONS  
IN THEIR PETITION

Prosecutor Will Be Given  
Case If Charges Are  
Sustained.

Acting upon the application made by George Sharp, accompanied by affidavits of James McConnell and Wm. B. Randolph, the board of deputy supervisors of election for Columbiana county, will begin an investigation at 7:30 p. m. Wednesday of alleged irregularities in connection with the election held in the west precinct of Salineville Tuesday, Nov. 8.

Announcement of the designation of the date for the investigation was made by James S. Hilbert, chief deputy, and John W. Moore, clerk of the election board, both of East Liverpool.

In his petition, George Sharp asks that the entire vote cast in the precinct be thrown out for the following reasons:

First—The election was irregularly, illegally and fraudulently held.

Second—The ballots cast were illegally and fraudulently removed from the different ballot boxes and counted.

Third—The ballots cast were not removed from the different boxes and tallied by the duly authorized clerks of said election.

Fourth—Persons who were candidates on the different ballots cast at said election were permitted to assist in the counting of the ballots cast and in marking the votes on the tally sheet.

In reply to the request of the Salineville petitioner, Clerk Moore of the election board points out that the election supervisors do not recognize authority to throw out the ballots after they have been tabulated, but the board does deem it necessary to hold a hearing and investigation be held.

The election board has notified J. P. Mulhern, E. B. Weaver, Gladwyn Hull and Patrick Mulhern, judges, and Adelia Dobson and Leah Weaver, clerks, comprising the election officials in the west precinct of Salineville to appear for the hearing in East Liverpool Wednesday night.

In the event that irregularities are found, the matter will be referred to Prosecuting Attorney Jesse C. Hanley, members of the election board said.

## NEAR FLOOD THREATENING OHIO VALLEY

Wheeling, Nov. 28.—A near flood is threatening the upper Ohio valley, as the result of almost continuous rains since early on Thanksgiving day. Precipitation here up to 8 o'clock this morning has been 3.22 inches, with rain still falling, and all the smaller streams entering the Ohio full. The stage at the wharf at 8 o'clock this morning was 24 feet and rising, with predictions for a stage of 30 feet with no more rain. The danger point here is 31 feet.

While the situation here is threatening, it is even more so at Parkersburg, where the Ohio is being swelled by a freshet out of the Little Kanawha river. Merchants at Parkersburg have already begun to move their goods from basements and first floors.

## Mercy Drive Opens In Salem Tuesday

Annual Roll Call Campaign  
Will Continue Tuesday  
And Wednesday; Team  
Workers Meet Tonight  
For Final Instructions.

Final plans for the Red Cross membership roll call campaign, which will be opened Tuesday morning and closed Wednesday night, will be completed at 6:30 p. m. Monday at a get-together meeting of Red Cross workers in the Elk home.

Outlines of the general activities of each team captain for the campaign and the way in which the funds raised by the local chapter will be explained.

A thorough roll call will be conducted. Every home in Salem will be visited and every member of each family will be asked to enroll. The city has been subdivided into districts with teams to canvas each district. While soliciting was started in shops Monday, residential soliciting will not commence until Tuesday morning.

In explaining the annual roll call drive the workers call attention to the contributing membership of \$5 and the sustaining membership of \$10 from which membership but 50 cents goes to the national fund and the rest for Salem Red Cross work. Regular Red Cross enrollment costs one dollar.

Monday night at the get-together meeting William Carl Hunt of Red Cross Lake division headquarters at Cleveland, will address the workers on the activities of the Red Cross. Rev. H. L. Miller, President C. T. Brooks of Salem chapter and Miss Bess Leach, Red Cross social worker will be on the program. L. L. Ferrie, roll call chairman, will preside.

Work of Red Cross  
In view of the fifth general membership roll call of the Salem Chapter of the American Red Cross it will be of interest to recall some of the important facts connected with this organization.

The American Red Cross has been in operation in the United States since a time prior to the Civil war 1860-1865 and operated through that war. It operated as a definite organization for general aid to humanity, principally in disaster relief until 1905 when the present organization was formed under charter of the U. S. government. This organization became the nucleus for the war organization which did such marvelous work throughout the World war and has since the war been in operation in many forms of necessary relief in the war stricken countries, as well as at home, arising as the aftermath of the war, and in addition has carried on the general work of disaster relief in this country.

After the World war the American Red Cross became the inspiration of an association of Red Cross organizations of the leading countries of the world formed for the purpose of carrying on throughout the world the benefit to humanity, in the form principally of education and relief.

The American Red Cross was not an organization brought forth by the World war nor has its functions ceased with the end of the war. The budget demands for the fiscal year July 1, 1920, June 30, 1922 will indicate the breadth of operations of the Red Cross and its needs in carrying on its marvelous work.

"Through its chain of chapters linking virtually every county in the country with headquarters at Washington the Red Cross has established a net work of communication through which instantaneous relief may be dispatched to any part of the U. S."

Its activities cover in the seven (7) home divisions and the one foreign and insular division, the following, which reach to all parts of the U. S. over outlying possessions and foreign countries.

Health activities—Nursing Service, Home Hygiene, Care of the Sick, Nutrition, First Aid, Life Saving Classes, Health Centers.

Ex-Service Work  
In addition to the above is the service to the ex-soldier and their families continued at the express request of the government. This service is now heavier than ever before.

The Red Cross spent last year \$10,609,000 for the ex-soldier and their families which is \$4,000,000 in excess of the \$1 membership. The balance being made up by sustaining and contributing memberships; 399,120 ex-soldiers and their families received direct aid from Red Cross chapters.

The Red Cross also covers

## ORPHANS TO RECEIVE CHRISTMAS PRESENTS

When the board of directors of the National German home, Newgarden road, met Sunday afternoon at the home it was decided to celebrate Christmas at the home on Christmas day with a program. Gifts will be distributed among the children.

The board will meet again Dec. 18.

Disaster Relief Activities. Since 1881 \$14,300,000 have been spent by the U. S. and last year \$1,600,000. This amount included \$650,000 supplied to Salem, during the typhoid epidemic. Forty-three disasters and two typhoid epidemics were cared for.

The junior Red Cross organized in the schools had a membership of 5,200,000 last year. The motto of the Junior Red Cross is "We Serve." This splendid division of Red Cross ministered to thousands of needy children the past year in this country besides sending approximately \$1,000,000 and countless gifts to suffering and war stricken children abroad.

Extension Service  
The Red Cross Extension service characterizes particularly on own home city of Salem—which means carrying the same kind of unselfish service to worthy civilian families in need, as is extended to the ex-service men and their families. This program has been adopted by many other chapters throughout the land.

The following statistics will be of interest and aid in showing the wonderful scope of Red Cross activities:

Red Cross furnished 19,800 nurses during the war.

Red Cross now has 37,000 nurses subject to call.

It has operating in the U. S. now 1535 public health nurses and there is demand for 2,000 more.

There are 1,726 nurses giving instruction in home hygiene and care of the sick; 758,010 women and girls took this course last year. If this instruction had preceded the typhoid epidemic, which caused the death, it is said, ten times as many Americans as was caused by the World war, a large number would have been saved.

Red Cross is operating 407 health centers  
In foreign countries the Red Cross work is confined now almost exclusively to children and refugees which involves the hardest problem confronting humanity in the countries which suffered upheaval as a result of the war.

Millions of children require aid if they are to live. It is said 94 per cent of the children in Poland alone are tubercular. Health centers are being established on a permanent basis; medical supplies and clothing in vast amounts have been supplied to the sufferers in southeastern Europe.

The Red Cross is doing there a wonderful work in helping to save a civilization.

## Expect Japan To Yield On Naval Issue

American Officials Believe  
Japan Will Accept  
Ship Ratio.

Washington, Nov. 28.—"Japan will make a stiff fight but in the end she will yield."

This expression from a high ranking naval authority accurately reflected today the opinion held by American officials and foreign diplomats that this, the third week of the armament conference, will see Japan's acceptance of the 5-5-3 capital ship ratio laid down in the American program.

It has been known for several days that the Japanese delegation here is under instructions from Tokyo to hold out strongly for an increase in the ratio to 10-10-7. It is understood that Japan will formally lay such a proposition before the powers at the first meeting of the naval committee.

The absolute rejection of the Japanese proposal by the American authorities is assured. American experts feel that Japan has been treated liberally in the 5-5-3 ratio. They point out that the three to five program was decided upon only after many experts had insisted that Japan's allowance of capital ships be placed at 50 per cent instead of 60.

Secretely Pleased  
The opinion also is held by some American officials that Japan secretly is rather pleased by the ratio of three to five and that she is making a fight on it with the idea that by seeming to yield reluctantly she may be able to get concessions further on in the conference, perhaps in the matter of auxiliary ships.

It can be stated authoritatively that British experts are ones with the Americans in the capital ship ratio.

While American officials deprecate any suggestion of a split in the conference it can be stated authoritatively that the American delegation unwilling to see the conference stand or fall on the issue of Japan's acceptance.

Until the capital ship issue is settled the experts are not concerning themselves with the objections raised by both Japan and England with regard to auxiliary ships such as submarines, light cruisers and airplane carriers. The big ships form the hub of the whole Hughes' program and until an agreement is reached on these the experts are giving little thought to the other craft. One thing at a time is their motto.

## POLICE CONTINUE RAIDS FOR BOOZE; KREMSEY IS FINED

Mayor Assesses \$300 Fine  
When Kremsey Admits  
He Kept Liquor.

NEAGO PLEADS NOT  
GUILTY TO CHARGE

Evidence Found In One Of  
Four Places Raided  
Saturday Night.

In a succession of raids Saturday night by Safety Director Chalfant and police officials on suspected booze selling establishments, Fred Kremsey, proprietor of the Kremsey place on Roosevelt ave., was charged with unlawful possession of intoxicating liquor.

The restaurant and soft drink establishment at the corner of Broadway and Eina st., the Kleineman place at Depot and Eina sts., the Brunswick Billiard parlor on Main at and the Power house on Broadway were raided but no liquor was found.

Scenes of excitement marked the raid at the Kremsey place on Roosevelt ave. Safety Director Chalfant, Officers Webster and Gray and Fireman Yarwood approached the building from the rear. As they were entering the front door a warning was sounded.

The door was thrown open and Safety Director Chalfant and Fireman Yarwood leaped across the bar, catching the bartender in the act of dumping a pitcher of liquor, they allege.

The pitcher was confiscated and taken to police headquarters for evidence at the trial.

Thorough search of other establishments raised was made but no convicting evidence was found.

Monday morning at his hearing before Mayor Post Kremsey entered a plea and was fined \$300 which he paid and was released.

A plea of not guilty to a charge of unlawful possession of intoxicating liquor was entered by George Neago. His hearing will be held later.

## DAILEY, CHARGED WITH THREATENING TO KILL WIFE, HELD TO COURT

It developed at the hearing that Dailey has caused frequent disturbances at his home and it is alleged that he threatened to shoot his wife with a revolver which was given to Mayor Post by Mrs. Dailey.

Arrested Sunday night at his home on Depot st. by Officer Gray on a charge of disorderly conduct, Leo Myers was fined \$10 by Mayor Post at his hearing Monday.

Myers, it is claimed, went home intoxicated Sunday night and upset the stove, chairs and caused considerable disorder.

## The Red Cross Appeal

THERE should be a ready response to the appeal of Salem chapter, Red Cross, for memberships during the annual roll call campaign which opens tomorrow. The appeal is for one, five or ten dollar memberships and at least one of these is within the reach of every man and woman in Salem. The appeal comes but once a year and if the response is as great as it should be there will be sufficient funds to carry on the work throughout the coming year.

So, quietly but effectively, is this work of mercy conducted that its accomplishments are frequently underestimated or at least not appreciated. The recent report of Salem chapter outlined the work accomplished in the six branches which comprise the efforts of the workers in Salem. First of all looms the constructive efforts in behalf of the ex-service men and this alone should be rewarded with a flood of memberships that will make possible the continuation of the work.

But there are other accomplishments which make this campaign an effective call to duty. There is the civilian work, with provisions of food, clothing and fuel for the needy, the employment bureau, disaster relief, loan chest and nursing with its home hygiene and care of the sick classes. The great, moving, patriotic incentive which made a man eager to give all he could for his country and those fighting her battles, and ask no questions, is lacking now. But one of the greatest tests of patriotic duty comes when men and women are confronted with appeals to support organizations and institutions that must "carry on" when there is no great battle to stir the people to action. The need for Red Cross work must go on when wars are over and peace reigns again. The solicitors in this campaign must get the public mind to turn to it and give it the moment of thought that would make the individual duty and opportunity plain.

Funds are needed, needed to keep the home fires burning and care for the men wounded and disabled in war, men for whom the war has not yet ended and will not end until death ends it. For them the appeal is made. Who would want to refuse or fail to help in a cause that has so much of humanity to it?

## Helping The Postman

POSTMASTER GENERAL HAYES has asked the co-operation of the public in the heavy task of handling promptly the large volume of mail certain to be posted during the holiday season. He has made a request so reasonable that the public ought to find it a pleasure to comply.

The hane of the postal service during the holiday season is not the enormous increase in letter and parcel post mail. The task of handling it can be done with extra help. The hane is the use by the public of the old-sized envelopes for holiday greetings.

These little missives, expressive of good wishes and ever welcome, are a nuisance to the postal service. Letter mail is handled mechanically in stamp cancellation, but the little envelopes, those novel little conceits that are in popular favor, require special cancellation by hand. They not only require much more time but they delay the business mail.

The postmaster general merely requests that those who send holiday greetings to their friends use envelopes of standard size so they may run through the cancelling machines without loss of time and not serve to delay other important mail. It is a reasonable request. Doubtless an appreciative public will be glad to meet it.

Cambridge—Mr. and Mrs. Otis W. Walters went to meet a train bringing friends. The train was nearly an hour late. While they were absent, their home was entered by burglars who obtained nothing.

Pittsburg—Dorothy Higham, 13, high school girl, was killed instantly when struck by a truck. The driver escaped, leaving the girl's body lying in the street.

## LIKE STARTING HIS LIFE OVER

Chicago Man Says Tanlac Made Quick Work of Troubles That Followed Him Seven Years.  
"Before I commenced taking Tanlac the least bite of food of any kind would upset my stomach terribly, and now I can even eat meat and anything else I want without a bit of trouble afterward," said Joseph York, 5214 North Clark st., Chicago, Ill. Mr. York is a member of the well known Tennessee family of Yorks, and formerly lived in Huntsville, Tenn.  
"For seven years I had stomach trouble and gastritis very bad. My food made me terribly sick and I couldn't eat a bite of meat or drink any coffee because they hurt me so bad. I had severe headaches every day and would get so dizzy I felt I would fall over in a faint. I got to where I was so nervous I couldn't sleep at night to speak of, and mornings when I got up I felt so tired I could hardly go to work.  
"However, after my first few doses of Tanlac my stomach trouble began to lose its grip, and now I have none of my troubles left and I feel so good it seems just like starting life all over again. I am still gaining strength, and I sleep like a top. I get up mornings and start on my run feeling good and come home nights feeling the same way. Tanlac certainly has made quick work of my troubles."

Tanlac is sold in Salem by The J. H. Lease Drug Co., Balzer & French, Flaming's drug store and by all leading druggists everywhere.

## THE SLOUCHY MAN NEEDS A LIFT

Has Clogged Blood and Should Take Gude's Pepto-Mangan.

The man who walks with a slouch usually has a heavy, dull expression on his face. The eyelids droop in a lazy, languid way and he goes around feeling dead tired most of the time. Bad blood, all clogged up with poisons from the system, makes a man feel that way.

That man with bad blood has let himself get in a rundown condition. He has overdone somehow, either physically by straining, trying to do too much, or mentally by worrying, doing without sufficient sleep. He needs new blood. Gude's Pepto-Mangan taken in regular doses every day is just the right blood builder. It drives off all the poisons. It makes blood, rich and red. When the blood gets back to normal, the color improves and the eyes brighten. It braces a man up.

## Why CALUMET BAKING POWDER Contains White of Egg

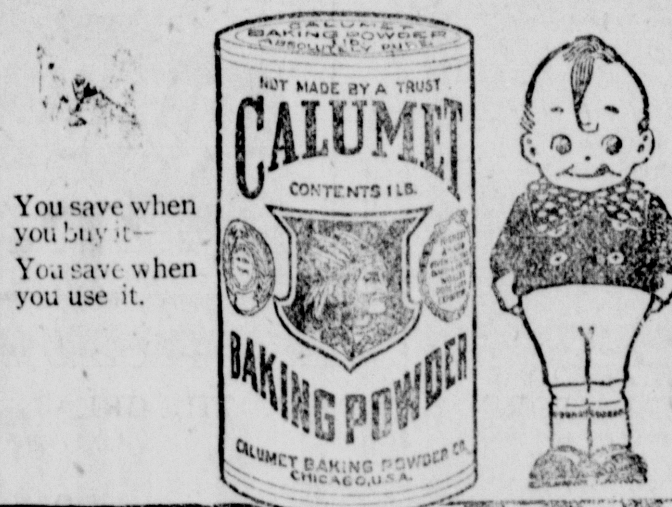

Every time you buy a can of Calumet Baking Powder you have positive proof of its leavening strength—you know that it is not deteriorated in the slightest degree. You have this assurance because Calumet contains a small amount of white of egg.

When the Calumet salesman calls on the grocer he makes a simple test of Calumet which discloses any deterioration that may have occurred

through exposure to dampness or other causes. Without the presence of a small amount of white of egg this test could not be made.

When you buy and use baking powder that does not contain white of egg you take the chance of spoiling your baking because deterioration cannot be detected in such powders in any other manner than through laboratory tests.

Buy Calumet because you know what the results will be when you use it.

You save when you buy it—  
You save when you use it.

## MOTHER! MOVE

## CHILD'S BOWELS WITH CALIFORNIA FIG SYRUP

Hurry mother! Even a sick child loves the "fruity" taste of "California Fig Syrup" and it never fails to open the bowels. A teaspoonful today may prevent a sick child tomorrow. If constipated, bilious, feverish, fretful, has cold, colic, or if stomach is sour, tongue coated, breath bad, remember a good cleansing of the little bowels is often all that is necessary. Ask your druggist for genuine "California Fig Syrup" which has directions for babies and children of all ages printed on bottle. Mother! You must say "California" or you may get an imitation fig syrup.

## GRANDMA USED SAGE TEA TO DARKEN HAIR

She Mixed Sulphur With It To Restore Color, Gloss, Youthfulness  
Common garden sage brewed into a heavy tea, with sulphur added, will turn gray, streaked and faded hair naturally dark and luxuriant. Just a few applications will prove a revelation if you hair is fading, streaked or gray. Mixing the Sage Tea and Sulphur, recipe at home, though is troublesome. An easier way is to get a bottle of Wyeth's Sage and Sulphur Compound at any drug store, all ready for use. This is the old-time recipe improved by the addition of other ingredients.

While wispy, gray, faded hair is not sinful, we all desire to retain our youthful appearance and attractiveness. By darkening your hair with Wyeth's Sage and Sulphur Compound, no one can tell because it does it so naturally, so evenly. You just dampen a sponge or soft brush with it and draw this through your hair, taking one small strand at a time; by morning all gray hairs have disappeared, and after another application or two your hair becomes beautifully dark, glossy, soft and luxuriant.

## QUICK RELIEF FROM CONSTIPATION

Get Dr. Edwards' Olive Tablets

That is the joyful cry of thousands since Dr. Edwards produced Olive Tablets, the substitute for calomel.

Dr. Edwards, a practicing physician for 17 years and calomel's old-time enemy, discovered the formula for Olive Tablets while treating patients for chronic constipation and torpid livers.

Dr. Edwards' Olive Tablets do not contain calomel, but a healing, soothing vegetable laxative.

No gripping is the "keynote" of these little sugar-coated, olive-colored tablets. They cause the bowels and liver to act normally. They never force them to unnatural action.

If you have a "dark brown mouth"—bad breath—a dull, tired feeling—sick headache—torpid liver—constipation, you'll find quick, sure and pleasant results from one or two of Dr. Edwards' Olive Tablets at bedtime.

Thousands take them every night just to keep right. Try them. 15c and 50c.

## Buy Insurance, Make Your Will, County Agent Advises

BY M. K. ZIMMERMAN

Salem, Nov. 28.—The first annual meeting of the Columbiana County Farm Bureau will be held in the Farm Bureau headquarters, Liberty building, Jan. 3, M. D. Lincoln, one of the most noted agriculturists in Ohio will speak. Officers for the new fiscal year will be elected at this time and the annual report of County Agent C. E. Rowland will be presented.

County Agent Rowland has come out strong for members of the Farm Bureau to take out insurance and make a will. "Both are important," he has declared. He continued:

There are two things a man owes his family.

"When a young farmer starts out in the world to build a home for himself and family, he is usually embarrassed financially. If he buys a farm piece out of ten he will make a small payment and give a mortgage for the balance. Things may go nicely for a few years and unexpectedly his life is snuffed out by disease or accident.

"What does he leave his wife who has toiled just as hard as he in order to pay for his farm? and usually three or four small children to feed, protect and educate and a heavily mortgaged farm. A woman without money or source of income, sometimes is the cause of untold suffering.

was the guest of relatives in town Saturday.

The Magazine club will meet Wednesday afternoon with Mrs. E. S. Santee as hostess.

Responses, Bible verse; paper, "Women of the Bible, Mrs. Walter Elyson; music, "Sacred Transcription," Mrs. T. D. Prim; "Bible Poems," Mrs. Ralph Copock; "Writers of Sacred Music, With Selection," Mrs. B. J. French.

Miss Berry teacher of the Model school has returned from her vacation at her home in Cardington, Ohio.

Pittsburg—Two courses of mathematics have been suggested for the high schools in this city, the line of study to be prescribed for the individual need or desire of the student.

Gallipolis—Frederick Eberbach, wealthy coal operator, has received a blackmail letter demanding \$25,000. Eberbach has turned over the letter to the postal authorities.

## IN BED EIGHT MONTHS

Cause—Change of Life. How Lydia E. Pinkham's Vegetable Compound Got Me Up

Afton, Tenn.—"I want other suffering women to know what Lydia E. Pinkham's Vegetable Compound has done for me. During the Change of Life I was in bed for eight months and had two good doctors treating me but they did me no good. A friend advised me to take Lydia E. Pinkham's Vegetable Compound, which I did, and in a short time I felt better. I had all kinds of bad spells, but they all left me. Now when I feel weak and nervous I take the Vegetable Compound and it always does me good. I wish all women would try it during the Change of Life for I know it will do them good. If you think it will induce some one to try the Vegetable Compound you may publish this letter."

—Mrs. A. KELLER, Afton, Tennessee.

## Makes a Family Supply of Cough Remedy

Really better than ready-made cough syrups, and saves about \$2. Easily and quickly prepared.

If you combined the curative properties of every known "ready-made" cough remedy, you probably could not get as much real curative power as there is in this simple home-made cough syrup, which is easily prepared in a few minutes.

Get from any druggist 2½ ounces of Pinex, pour it into a pint bottle and fill the bottle with syrup, using either plain granulated sugar syrup, clarified molasses, honey, or corn syrup, as desired. The result is a full pint of really better cough syrup than you could buy ready-made for three times the money. Tastes pleasant and never spoils.

This Pinex and Syrup preparation gives right at the cause of a cough and gives almost immediate relief. It loosens the phlegm, stops the nasty throat tickle and heats the sore, irritated membranes so gently and easily that it is really astonishing.

A day's use will usually overcome the ordinary cough and for bronchitis, croup, hoarseness and bronchial asthma, there is nothing better.

Pinex is a most valuable concentrated compound of genuine Norway pine extract, and has been used for generations to break up severe coughs.

To avoid disappointment, ask your druggist for "2½ ounces of Pinex" with full directions, and don't accept anything else. Guaranteed to give absolute satisfaction or money promptly refunded. The Pinex Co., Ft. Wayne, Ind.

# OHIO IMPORTS LARGE MAJORITY OF PRODUCTS

Ohio ranks low in the list of fruit or vegetable shipping states. With the exception of onions, cabbage, celery and apples it imports from other sections a great deal more than a majority of the products on the consumer's table. Even in these four commodities, large quantities are shipped in, but, on the other hand some of that produced in Ohio is shipped to points outside the state's boundaries. After the several visits of King Frost last spring, apples must be raised from the board, leaving the other three for consideration, with cabbage running a poor third. The bulk of Ohio's onions and celery are raised in the northern half of the state, on the so-called "muck lands." Onion shipping centers are well distributed over that section of the state, while the chief celery producing localities lie within the northern quarter. Accurate production figures are not available upon celery and onions for this year, but the dry summer curtailed the total output. Ohio Yellow Globe onions, graded according to specifications of U. S. No. 1, have been upon a gradually increasing market place all season and are now jobbing off the larger markets at from \$5.00 to \$6.00 for a sack of 100 pounds. This is considerably higher than last year, when many producers later in the winter could not dispose of stock on hand at 75 cents for the same measure of sack. The celery market has been rather steady since the shipping season started with the producers receiving anywhere from 20 to 60 cents for a bunch of 12 stalks. This price range depends more upon the quality and condition of the celery than upon market conditions, as the daily fluctuations have been small.

# Yeast Vitamon Tablets Greatest Complexion Secret

**Banishes Skin Eruptions, Puts On Firm Flesh.**

If you want to quickly clear your skin and complexion, put some firm, healthy flesh on your bones, increase your nerve force and power, and look and feel 100 per cent better, simply try taking two of Mastin's tiny yeast VITAMON Tablets with each meal and watch results. Mastin's VITAMON Tablets contain highly concentrated yeast-vitamins as well as the two other still more important vitamins (Fat Soluble A and Water Soluble C). They positively will not upset the stomach or cause gas but, on the contrary, are a great aid to digestion, to overcome constipation and as a general conditioner of the whole system. Pimples, boils and skin eruptions seem to vanish like magic under their purifying influence. The complexion becomes fresh and beautiful, the cheeks rosy instead of pale, the lips red instead of colorless, the eyes bright instead of dull. So rapid and amazing are the results that success is absolutely guaranteed or the trial costs you nothing. Be sure to remember the name—Mastin's VITAMON—the original and genuine yeast-vitamine tablet.

There is nothing else like it, so do not accept imitations or substitutes. You can get Mastin's VITAMON Tablets at all good druggists.

## EAT LESS AND TAKE SALTS FOR KIDNEYS

Try a Glass of Salts If Your Back Hurts or Bladder Bothers

The American men and women must guard constantly against kidney trouble, because we eat too much and all our food is rich. Our blood is filled with uric acid which the kidneys strive to filter out, they weaken from overwork, become sluggish, the eliminative tissues clog and the result is kidney trouble, bladder weakness and a general decline in health.

When your kidneys feel like lumps of lead; your back hurts or the urine is cloudy, full of sediment or you are obliged to seek relief two or three times during the night; if you suffer with sick headache or dizzy, nervous spells, acid stomach, or you have rheumatism when the weather is bad, get from your pharmacist about four ounces of Jad Salts; take a tablespoonful in a glass of water before breakfast for a few days and your kidneys will then act fine. This famous salts is made from the acid of grapes and lemon juice, combined with lithia, and has been used for generations to flush and stimulate clogged kidneys; to neutralize the acids in the urine so it no longer is a source of irritation, thus ending bladder disorders.

Jad Salts is inexpensive; cannot injure, makes a delightful effervescent lithia-water beverage, and belongs in every home, because nobody can make a mistake by having a good kidney flushing any time.
